3 Easy steps to guaranteed protection from persistent rabbits!

Directions:

1 **SHAKE WELL before each use!**

2 Add 8 ounces of **Liquid Fence® Rabbit Repellent Concentrate** for each gallon of water and thoroughly mix.

3 With garden sprayer or sprinker, apply liberally to plants and their perimeter during a dry period.

Eco-safe

Repeat process 1 week later and then approximately once per month thereafter. Areas where feeding pressure from rabbits is intense, spray **Liquid Fence Rabbit Repellent** once a week for 3 weeks and then approximately once per month thereafter. This will "train" the animals to avoid your yard! Please note: when using **Liquid Fence** you may notice an odor, however once it dries, the odor will not be noticeable to humans, but still very noticeable to animals.

How Liquid Fence Dual Action Rabbit Repellent really works...

While most rabbits can be repelled with scent alone, high-density rabbit populations include many young rabbits with voracious appetites, and can be an extremely persistent problem. For this reason, we've developed a dual-action formula that repels with both scent and taste – a guaranteed-effective, one-two punch to fight extreme rabbit problems! Professional landscapers have already discovered... **Liquid Fence** stops rabbit damage – naturally!
